**BEDDELEEM**

## OUR MISSION | Realise the futureproof workspace through sustainability, innovation and excellence.

Beddeleem offers a **comprehensive and client-centric approach to office fit-outs**, combining experience, expertise, and a commitment to quality. Clients can expect tailored solutions, timely delivery, and ongoing support, making us a strong choice for any organization looking to transform their office space.

We boast a **wealth of experience in office fit-outs** and have completed numerous successful projects. Through our expertise, we understand customers' needs and strive to be the best in our industry.

We offer a **full range of products and services**, from initial concepts to final installation and project management. Clients can rely on a single provider for all their fit-out needs, streamlining the process and ensuring consistent quality.

Beddeleem takes a **personalized approach** to each project, customizing solutions to align with the specific needs, brand identity, and functional requirements of the client. This ensures that the final result reflects the client's vision.

Beddeleem occupies a unique position in the construction sector: we are both a **class 8 total finishing company and manufacturer** of relocatable partitions, climate ceilings, doors and furniture. This combination is an added value for the customer.

As a finishing construction company, we have **more than 70 years of experience** in the total interior design and finishing (fit-out) of office buildings, utility buildings, healthcare institutions, school buildings,... For B2B as well as for national and European government institutions.

**If you're looking for an office with high-quality finishing, there's only one address that meets all your expectations.**

FAYMONVILLE

Lentzweiler - Luxembourg

In addition to finishing the building with a **wide choice of ceiling and partition systems**, we can also take care of the **coordination** of the various techniques and, as the icing on the cake, the final finishing with loose and fixed furniture.

This **one-stop-shop** approach offers a whole range of advantages to the customer. For example, you have a **single point of contact** for the entire process from A to Z. We take care of the coordination of your project. Everything is under our management so that we can work out all the technical nodes ourselves. This ensures fewer unforeseen circumstances during installation on site.

**DURABRIK**

Drongen

**PUILAETCO Souverain**

Watermaal-Bosvoorde

In addition, the products can also be matched aesthetically. After all, many products are developed and produced by ourselves. Just think of the same paint colour and other various finishes within your project.
